**INDEPENDENT REVIEW REPORT TO KUWAIT ENERGY plc**

We have been engaged by the company to review the condensed set of financial statements in the half-yearly financial report for the six months ended 30 June 2017 which comprises the condensed consolidated income statement, the condensed consolidated statement of comprehensive income, the condensed consolidated balance sheet, the condensed consolidated statement of changes in equity, the condensed consolidated cash flow statement and related notes 1 to 14. We have read the other information contained in the half-yearly financial report and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

This report is made solely to the company in accordance with the terms of our engagement letter dated 30 August 2017 and in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the International Auditing and Assurance Standards Board. Our work has been undertaken so that we might state to the company those matters we are required to state to it in an independent review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company, for our review work, for this report, or for the conclusions we have formed.

**Directors' responsibilities**

The half-yearly financial report is the responsibility of, and has been approved by, the directors.

As disclosed in note 2, the annual financial statements of the group are prepared in accordance with IFRSs as adopted by the European Union. The condensed set of financial statements included in this half-yearly financial report has been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting," as adopted by the European Union.

**Our responsibility**

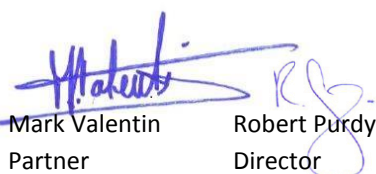

Our responsibility is to express to the Company a conclusion on the condensed set of financial statements in the half-yearly financial report based on our review.

**Scope of review**

We conducted our review in accordance with International Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the International Auditing and Assurance Standards Board. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of financial statements in the half-yearly financial report for the six months ended 30 June 2017 is not prepared, in all material respects, in accordance with International Accounting Standard 34 as adopted by the European Union.

## NOTES TO THE CONDENSED SET OF FINANCIAL STATEMENTS

For the six month period ended 30 June 2017

**1. INCORPORATION AND ACTIVITIES**

Kuwait Energy plc ("the Company") is a company incorporated on 12 September 2011 in Jersey in accordance with the Commercial Companies Law in the Bailiwick of Jersey.

The Company and its subsidiaries (together referred to as "the Group") have been established with the objective of exploration, production and commercialisation of crude oil and natural gas. The Company's registered address is Queensway House, Hilgrove Street, St Helier, Jersey, JE1 1ES.

These condensed set of financial statements do not include all of the information required for a full annual financial report and are to be read in conjunction with the Group's financial statements for the year ended 31 December 2016, which were prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (EU). The financial information for the year ended 31 December 2016 in this report does not constitute statutory accounts. This information has been derived from the statutory accounts for the year ended 31 December 2016, a copy of which is available on the Company's website and is filed with the Jersey Registrar of Companies. The auditor's report on these accounts was unqualified and did not draw attention to any matters by way of emphasis.

**2. ACCOUNTING POLICIES****Basis of preparation**

The annual financial statements of the Group are prepared in accordance with IFRS as adopted by the European Union. The condensed set of financial statements included in this half-yearly financial report has been prepared in accordance with International Accounting Standard 34 'Interim Financial Reporting', as adopted by the European Union (EU).

The accounting policies used in the preparation of this condensed set of financial statements are consistent with those used in the preparation of the annual consolidated financial statement for the year ended 31 December 2016. No new and revised standards became effective in the EU during the period.

**Going concern**

As at 30 June 2017, the Group was funded principally by a combination of its cash balances, equity, borrowings, convertible loans and cash generated from operating activities. The Group has significant levels of planned capital expenditure during the next 12 months including field development expenditures in Iraq, although much of this is discretionary. The Group has completed the farm-out of one of the Group's key oil and gas assets (see note 10), and has signed an agreement with one of the convertible loan lenders for mandatory conversion of its loan into ordinary equity shares of the Company (see note 11). These actions have materially improved the Group's liquidity position and reduced the Group's contractual payment commitments. The Group performs a cash flow scenario analysis at each balance sheet date including modelling various downside scenarios and available mitigating factors. From this analysis at 30 June 2017 the directors believe that whilst some uncertainties exist over future events, the Group has various options available to mitigate such events should they occur and maintain liquidity.

Therefore, after making enquiries the Directors have a reasonable expectation that the Group will have adequate resources to continue in operational existence for the foreseeable future, being at least the next 12 months from the date of approval of this condensed set of financial statements. Accordingly, the Directors continue to adopt the going concern basis of accounting in preparing this condensed set of financial statements.

## NOTES TO THE CONDENSED SET OF FINANCIAL STATEMENTS

For the six month period ended 30 June 2017

**3. SEGMENTAL INFORMATION**

Information reported to the Group's Executive Management, the chief operating decision maker, for the purposes of resource allocation and assignment of segment performance is specifically focused on the geographical area, namely Egypt, Iraq, Yemen and rest of the world (included in others). The Group has one class of business, being the exploration, development, production and sale of crude oil and natural gas.

Other operations include unallocated expenditure and liabilities of a corporate nature comprising the Company's external debt and other non-attributable corporate liabilities. The unallocated capital expenditure for each period comprises the acquisition of non-attributable corporate assets.

There has been no change in the basis of segmentation or in the basis of measurement of segment profit or loss in the period.

The following is an analysis of the Group's revenue and results by reportable segments:

## NOTES TO THE CONDENSED SET OF FINANCIAL STATEMENTS

For the six month period ended 30 June 2017

**4. TAXATION**

The overall tax charge of US\$3.9 million (30 June 2016: tax credit US\$ 0.2 million, 31 December 2016: tax charge US\$ 1.5 million) includes a prior period tax charge of US\$1.0 million. Corporation tax in the Company's country of domicile is calculated at 0% on assessable profits for all the periods, this rate being the applicable statutory tax rate for international businesses that are tax resident in Jersey. Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdiction and comprises the remainder of the charge.

**5. EARNINGS/(LOSS) PER SHARE**

The calculation of basic earnings/(loss) per share is based on the profit for the period after taxation attributable to owners of the Company of US\$ 5.7 million (30 June 2016: loss of US\$ 11.2 million, 31 December 2016: loss of US\$ 116.1 million) and a weighted average number of shares, net of treasury shares, of 326.8 million (30 June 2016: 326.6 million, 31 December 2016: 326.6 million).

There was no difference between basic and diluted earnings/(loss) per share for all the periods presented. The only potential dilutive instruments were the outstanding Employee Incentive Scheme (EIS) share awards, which have no material dilution impact on earnings/(loss) per share, together with shares to be issued on conversion of convertible loan which are not included in the calculation for either period as the number of shares that could be exercised is dependent on future events.

Other fixed assets include a carrying amount of US\$ 6.4 million (31 December 2016: US\$ 6.8 million) in respect of assets held under finance leases.

The additions to oil and gas assets mainly relate to Siba and Block 9 in Iraq, and include US\$ 8.5 million (31 December 2016: US\$ 17.0 million) of finance costs on qualifying assets capitalised during the period and US\$ 1.9 million (31 December 2016: US\$ 2.4 million) of fair value loss on convertible loans capitalised.

In accordance with IAS 36 *Impairment of assets* the Company has made an assessment for indicators of impairment and has not identified any significant indicators. Based on this review, the Group believes no impairment is required at 30 June 2017. In 2016, due to the reduction in the oil price assumption used in estimating the future cash flows, the Group recorded an impairment loss of US\$ 94.3 million, including US\$ 54.5 million on the Siba fields in Iraq, US\$ 7.2 million and US\$ 32.6 million on the BEA and Abu Sennan fields in Egypt respectively, which has been recognised in the consolidated income statement in 2016.

A request for arbitration was filed against the Group (pursuant to the ICC Rules of Arbitration) in 2016 under which the claimant asserted that it has a right to an increased non-controlling share in one of the Group's key oil and gas assets (the "Disputed Interest"). The claimant has requested equitable relief in the form of a conveyance of the Disputed Interest from the Group to the claimant or, alternatively, a cash amount on account of profits or damages. If the claimant is successful in its claim, the Group could be required to pay damages in this amount or could be required to transfer the Disputed Interest to the claimant. No amounts have been accrued regarding this claim as the Group believes that on the basis of external legal advice its position will be vindicated by the arbitral tribunal following a full review of the facts and evidence, and is firmly committed to vigorously defending the claim.

## NOTES TO THE CONDENSED SET OF FINANCIAL STATEMENTS

For the six month period ended 30 June 2017

**10. ASSETS HELD FOR SALE***Siba farm-out*

In May 2017 the Group has completed a farm-out transaction relating to its interest in the Iraq Siba area gas development and production service contract. Under the terms of the farm-out agreement, which has an effective date of 1 January 2016, the farmee has been assigned a 20% paying and 15% revenue interest in Siba and the Group retains a 40% paying and 30% revenue interest. The farmee has settled a part of the consideration in cash, and part of the consideration will be settled by paying the Group's share of costs of a major related contract. The balance owed to the group after settlement of this contract will be received from the farmee's allocation of revenue once production commences from this field. The current portion of deferred consideration is included in other receivables and the fair value of the non-current portion was calculated by discounting expected receipts based on management's best estimate of timing and is included in other non-current assets.

*Abu Sennan farm-out*

In December 2016 the Group signed a farm-out agreement to assign a 25% interest in Abu Sennan in Egypt with an effective date of 31 December 2016. Under the terms of the farm-out agreement the Group has received an advance of US\$ 12.0 million. Following the completion of pre-emption and government approvals, the Group will have a 25% revenue interest and a 53% cost interest in Abu Sennan. In September 2017, the Group has completed the Abu Sennan farm-out transaction (note 14).

The assets and liabilities held for sale are carried at fair value less costs to sell of the sales consideration for each farm-out. During the period ended 30 June 2017, a loss of US\$1.9 million on assets held for sale was recognised in the consolidated income statement, relating to the period between the effective date and completion.

The major classes of assets and liabilities comprising the assets classified as held for sale:

The change in fair value since the prior period arises as a result of changes in the forecasted cash flows, and forecasted likelihood and timing of an equity offering. Of this amount US\$ 1.9 million (31 December 2016: US\$ 2.4 million) has been capitalised to qualifying assets in the period, see note 7, resulting in a net charge to the income statement of US\$ 15.1 million (31 December 2016: US\$ 24.8 million).

During 2017 the Group and one of the lenders holding 50% of the principal amended certain terms of the convertible murabaha agreement. The Group and Qatar First Bank have agreed that, subject to a certain conditions, the principal and part of the premium amounts outstanding under the convertible murabaha agreement will mandatorily convert into ordinary shares of the Company prior to the first repayment date. Following this amendment, the loan from this lender has been recognised entirely as a current liability.

The convertible loans are classified as Level 3 in the fair value hierarchy in all the years presented. Level 3 fair value measurements are those derived from inputs that are not based on observable market data (unobservable inputs). The group uses a weighted average discounted cash flow technique to determine the fair value of the loans. The significant inputs considered in the valuation are likelihood and timing of a conversion event and the discount rate. The discount rate used was in the range of 10-18% (31 December 2016: 10-18%). Possible changes to the likelihood and timing assumptions in the fair value measurement could have a maximum impact of increasing the liability by US\$2.5 million or reducing the liability by US\$22.5 million.

**14. SUBSEQUENT EVENT**

In September 2017 the Group completed the farm-out transaction to assign a 25% interest in Abu Sennan in Egypt, which was classified as an asset held for sale as at 30 June 2017 (note 10).
