This presentation does not constitute a public offer of securities in any jurisdiction. It is not intended to be publicly distributed in any jurisdiction. This document is only being made available to interested parties on the basis that: (A) if they are in the UK, they are "qualified investors" within the meaning of Article 2(1)(e) of Directive 2003/71/EC (as amended) who also fall within Articles 19 or 49 of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005; or (B) they are outside the United Kingdom and are eligible under local law to receive this document. Recipients of this document in jurisdictions outside the UK should inform themselves about and observe any applicable legal requirements.

Apart from the responsibilities and liabilities, if any, which may be imposed on the Banks by the Financial Services and Markets Act 2000, the Bank (together with each of its respective directors, officers and employees) accepts no responsibility whatsoever and makes no representation or warranty, express or implied, for the information or the opinions contained in this presentation, including its accuracy, completeness or verification or for any other statement made or purported to be made by it, or on its behalf, in connection with the Company, and nothing in this presentation is, or shall be relied upon as, a promise or representation in this respect, whether as to the past or future. The Bank accordingly disclaims to the fullest extent permitted by law all and any responsibility and liability whether arising in tort, contract or otherwise (save as referred to above) which it might otherwise have in respect of this presentation or any such statement. Matters discussed in this presentation may constitute forward-looking statements. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The words "believe," "expect," "anticipate," "intends," "estimate," "forecast," "project," "will," "may," "should" and similar expressions identify forward-looking statements. Forward-looking statements include statements regarding: strategies, outlook and growth prospects; future plans and potential for future growth; liquidity, capital resources and capital expenditures; growth in demand for products; economic outlook and industry trends; developments of markets; the impact of regulatory initiatives; and the strength of competitors.

The forward-looking statements in this presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in the Company's records and other data available from third parties. Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond its control and it may not achieve or accomplish these expectations, beliefs or projections. These forward-looking statements speak only as at the date as of which they are made, and neither the Group nor any Relevant Persons intend or have any duty or obligation to supplement, amend, update or revise any of the forward-looking statements contained in this presentation.

This presentation contains certain statements, estimates, targets and projections provided by the Company, including with respect to the Group's anticipated future performance. These statements are intended to be illustrative only and were prepared based upon certain assumptions and management analysis of information available at the time presentation was prepared, and may or may not prove to be correct. These forward-looking statements speak only as at the date on which they are made, and neither the Group nor any Relevant Person makes any representation, warranty or assurance of any kind, express or implied, that the projections or targets will be realised. The actual results could vary materially and adversely from the projections contained herein.

Certain data in this presentation was obtained from various external sources, and the Company has not verified such data with independent sources. Accordingly, none of the Company or the Banks makes any representation as to the accuracy or completeness of that data, and such data involves risks and uncertainties and is subject to change based on various factors.

By attending the presentation and/or accepting a copy of this document, you agree to be bound by the foregoing limitations and conditions and, in particular, will be taken to have represented, warranted and undertaken that (i) you have read and agree to comply with the contents of this notice including, without limitation, the obligation to keep this presentation and its contents confidential; and (ii) you will not at any time have any discussion, correspondence or contact concerning the information in this presentation with any of the directors or employees of the Company or its subsidiaries nor with any of their suppliers, or any governmental or regulatory body, without the prior written consent of the Company.

Kuwait Energy's Key Iraqi Assets Located in a Stable Area

Context for Kuwait Energy

Southern Iraq Secure

- Southern Iraq produces ~3mboepd⁽¹⁾ oil and has been operating without interruption
- Distant from areas of unrest which are in any case limited
- Homogeneous population and has been largely isolated from conflicts over the last 10 years, wealthiest region in Iraq
- Kuwait Energy enjoys strong government and local relationships

Strong Demand for Domestic Gas

- Kuwait Energy's Siba asset will supply domestic gas for power generation
- Strong support from government to Kuwait Energy's operatorship of the largest gas resource in southern Iraq
- Siba project on budget, enhancing Kuwait Energy's reputation in Iraq

South Oil Company as Offtaker

- South Oil Company (SOC) has a reputation of consistent payments to IOC counterparties in Iraq
 - Majors operating as counterparties
- Kuwait Energy's remuneration may be in cash or kind, on election by SOC

Iraq Assets (Cont'd)

Key License Terms

- Iraqi assets are service contracts with 100% take-or-pay
 - Kuwait Energy has the highest initial service fees, subject to R-Factor, across all licensing rounds
 - Service fee independent of oil price, and include rapid cost recovery mechanism
- Kuwait Energy offtake in cash or in kind (i.e. crude oil)
 - South Oil Company (SOC) as the offtaker, has a reputation of consistent payments to IOCs counter parties in Iraq

Initial Remuneration Fee – Selected Iraqi Oilfields (\$/boe)

Block 9 – Largest Discovery in Iraq in the Last 10 Years

Highlights

- Awarded to Kuwait Energy in the 4th bidding round in May 2012 and located north of the city of Basra near the Iranian border
- 20-year up to a maximum of 30-year service agreement (with a possible 5-year extension period) signed in 2013
- First Kuwait Energy well (Faihaa-1) discovered oil in the Mishrif and Yamama formations in Q3/Q4 2014
- Early production achieved in October 2015, expected to ramp-up to 20 kboepd in 2017
- Area surrounded by major transportation routes that facilitate the off-take via Basra
- Payments made in crude, unless government elects to pay in cash
- Farm-out of 10% working interest to EGPC reinforces strategic ties with Egypt and transaction completed in September 2015
- Faihaa-2 well commenced production in September 2016 at an initial rate of 3,427 barrels of oil per day (bopd) from the Yamama-A formation.

EGYPT

Egypt – Stable Domestic Economic Environment

Recent Weakening of Credit Spreads and Yield Curve

Real GDP Growth Outlook

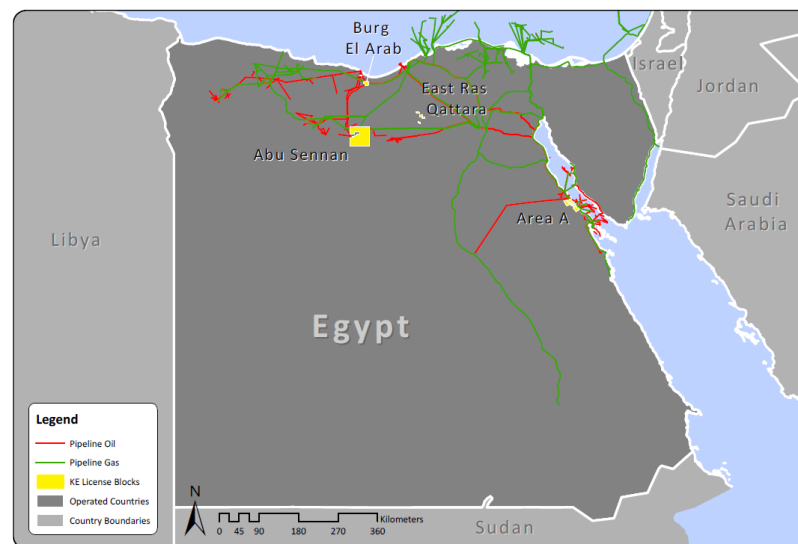

- Period of stability post election of current President had local economy return to normality though followed by recent partial selloff on the back of geopolitical tensions
 - One notch upgrade across rating agencies since 2013 with all stable outlooks currently
- Central Bank of Egypt has a new governor that is a seasoned banker with closer connections to the business community, aware of their main concerns as external financing might weigh down on FX reserves
- The Gulf countries have provided Egypt with ongoing grants, soft loans and petroleum products since 2013
- Shortage of gas and fiscal pressure prompting serious considerations of gas price reforms at EGPC/Government
- Received over \$51 million from EGPC during the first half of 2016

Egypt Assets

Highlights

- Egypt is a key focus country for Kuwait Energy
- Core Cash Generator for Kuwait Energy
- Four producing assets with development plan focused on drilling further wells to improve and maintain production
- Upside Potential
- Exploration potential in Abu Sennan and Area A
- Potential for EOR projects to supplement mature declining fields
- Strong Egyptian Relationship
- Strategic partnership with EGPC including the farmout in Block 9, Iraq

EGPC – A Quality Customer and Partner

Kuwait Energy's Strong Relationship with Egyptian General Petroleum Corporation

EGPC acts as primary offtaker to Kuwait Energy with respect to its production entitlement under the PSA in BEA, ERQ and Abu Sennan and is also responsible for the service agreement payments with respect to Area A

Kuwait Energy introduced EBRD to the government and facilitated the bank's entry in Egypt

Kuwait Energy has an excellent relationship with EGPC at all working levels through its local presence and executive management and keeps continuous dialogue with senior management

Kuwait Energy has been able to leverage this relationship in reducing the receivables from EGPC over time and has never incurred any bad debt from EGPC

EGPC has approached Kuwait Energy to consider international ventures, most recently in Iraq, off the back of Kuwait Energy's track record and relationships in Iraq

Improvement in EGPC Receivables Collections over the Last 4.5 Years

EGPC Receivables Development since 2012 (\$m)

- EGPC receivables reduced by approximately 76% (from \$189m to \$30m) over the last 4 years
- Even with increasing production, Kuwait Energy continuously collects from EGPC: \$241m in 2013, \$263m in 2014 and \$182m in 2015

KUWAIT

Overview

- Kuwait Energy was established on the premises that Middle East countries dominated by NOCs and in particular Kuwait would require Independent oil and gas companies in the future
- In March 2015, Kuwait Energy signed a Consultancy Services Contract with Surtek (well known in the field of EOR especially the Chemical Method) to act as an agent in Kuwait
- Surtek
 - Successfully bid to conduct an Integrated Enhanced Oil Recovery study for Kuwait Oil Company (KOC)
 - Providing an overall screening of potential EOR technologies (Aqueous and Gas Injection) for the Sabriya Lower Burgan Reservoir in KOC
 - Currently reviewing Sabriya static and dynamic models
- Kuwait Energy will benefit on the technical side from this study with zero expenditure by being involved with technology applications
- The Surtek contract marks the initial entry into Kuwait for Kuwait Energy and further projects are being pursued

CORPORATE & FINANCIALS

Strong Financial Position Supported by Solid Cash Flow Generation

Solid Financial Position

- Cash balance of \$54.5m at 30 June 2016 as a result of increasing production and collection of EGPC receivables, partly offset by the lower realised product price
- 53% EBITDA margin achieved in 1H 2016 in a decreasing crude oil price environment
- Future revenues largely independent from oil price movements due to fiscal structure of existing licensing agreements
- Significant remaining debt headroom and minimum work commitments satisfied across entire license portfolio
- Supportive shareholders contributed to injecting over \$1.25bn equity since company inception in 2005
